### Highlight Story:

Praise the Lord! All 10 tons of rice has been purchased for the upcoming year for our churches and partner churches when in need! We thank the Lord for using Grace Baptist Church to help meet this physical need that shows the love of Christ. This gift will help to reach so many in their times of need.

### Village Updates:

#### Popel Village Church:

Popel is still growing in their individual faith with God! For the past month, the church members have been busy practicing for their first ever Christmas celebration. The members have different roles to play like traditional cambodian dancing, acting out the birth story of Jesus, and the like. Everyone is looking forward to this day of celebration! All three churches that have been established this year (Popel, San Chey, and the Floating Village) will gather for the first time to fellowship and worship the birth of our King Jesus Christ! Popel Village Church has also been a great help in collecting the rice we were able to purchase! This place continues to grow in their

love and service to God.

### **San Chey Village Church:**

San Chey's Church is still being looked after by its raised-up leader, Lekru Chhin as Rlthy continues communication with him! As stated before, our aim is to have the churches established with leaders being raised up as we move on to new places that the Lord leads us too! The church is still joyful and look after each other well with godly, brother-like affection! Unfortunately, one of the members of church had a terrible thing happen. This new family of believers were attacked by a drunk unbeliever causing "Dta" to have a broken hip. He is currently staying in the hospital waiting for surgery. Please pray for he and his wife's faith as they are new believers. Pray for their financial needs to be met, the church to look after them, and for them to remain strong/firm in their faith only seeking Jesus for true healing (not the khmer false gods). Lekru Chhin has been helping to look after them as much as possible.

### **Floating Village Church:**

The Floating Village Church continues to meet weekly with Rithy and daily with each other. This church is still the youngest in faith, yet still so eager to learn. Please pray for Rithy to be guided in what to teach them, as well as, their faith to be firmly rooted in truth. Recently, the oldest member received glasses that he could finally see out of to read the Word of God. It is so special.

## Sustainable Projects and Needs Updates:

### Chicken Farms:

We currently have one chicken farm running in our Popel Village for the main leader, Bong Vanna and his family, to have a way to make money as well as something to eat. We have completely turned it over to them to run, and they are doing well with it!

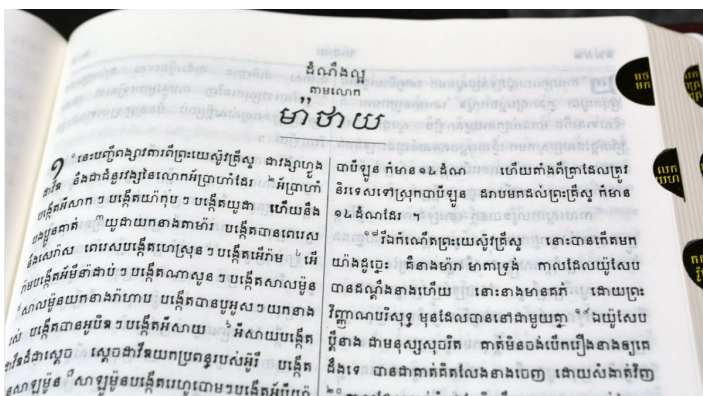

### Fish Farms:

By the Lord's provision, five fish farms have been created! This allows them the freedom to be able to serve while still having a bit of income! It is not too expensive to start a fish farm, nor too difficult to maintain it. For just a one time donation of \$200-\$400, (price varies depending on the type of fish purchased) we could place more fish farms among our church members in need for them to have a dignified, sustainable source of food and income!

### Bible Project:

As the churches continue to grow and new believers come to faith, the need for Bibles has come back! We are looking to purchase 30 Bibles for 2021 year to be given out when a new believer comes along in the villages + partner villages! One Bible is \$9.00, so total would be \$270! Would you be a Bible partner and help us reach this goal before the end of 2020?

## General Life Updates:

### Bible College:

Rithy continues to attend a bible college course along side of our partners where he is being trained in theology, history of the Bible, pastoral training and the like! This keeps him very busy in addition to looking after the three churches the Lord has put before us! He has greatly enjoyed the investment of studying more. He is currently on break as there is a new COVID 19 outbreak causing our country to shut down for a few weeks to maintain the spread.

**Family:** Kristie is in her second trimester and feeling more like herself daily! The baby is healthy and so is Kristie. We will be finding out the gender very soon! So what are you; team boy or team girl? Per the doctor, she needs to stay home and rest often due to previous miscarriages, so she is not able to visit the churches right now.

## Prayer Points:

- Covid 19 is rising again in Cambodia whereas before there was no longer communal spreading. There could thousands infected with it. Please pray for this country as financially and medically, it will be really difficult to deal with. We are mostly staying home per the government's request for now.
- Churches to thrive spiritually and grow daily in their love for God and for one another.
- Our leaders to rise up, stand firm and abide in Christ in Popel Church and San Chey Church. We want to start seeing them take on more responsibility.
- More fish farms to be provided to those who desire to serve God and have some income as well as families in desperate need!
- The health of both the babe and Kristie + Rithy to have strength as he goes out alone for this season of life!
- The physical and spiritual needs of the churches to be met!
- Us to have wisdom in meeting ministry needs.
